BIOGRAPHY

Martista is a Dutch house DJ splitting his time between Barcelona and Amsterdam. Since his first gig in 2009, he's built a reputation for reading a room and building sets that feel both intentional and alive, playing over 120 shows in 2025 alongside artists like SAMM (BE), Mont Rouge, Rivo, Moojo, and Pablo Fierro.

Martista is a Dutch house DJ who has made a name in both Barcelona and Amsterdam, with a sound built on warmth, groove, and dancefloor intuition. Since his first gig in January 2009, he's grown from Amsterdam via Barcelona into performing across some of Europe's most vibrant club and festival scenes, playing over 120 gigs in 2025 alone, with sets alongside artists like SAMM (BE), Mont Rouge, Rivo, Moojo, and Pablo Fierro.

His approach is rooted in reading the room, building journeys that feel both intentional and alive. Whether it's a terrace sunset in Barcelona or a late night Amsterdam club, Martista brings the same level of care to every moment behind the decks.

Rooted in the Dutch house tradition and shaped by years inside Barcelona's club underground, his sound sits at a crossroads that's entirely his own. Over the years he's become a trusted name on lineups across both cities, known as much for his consistency as for his ability to elevate a night, whether opening, closing, or holding down a peak hour slot.
